Product Code: DX517

Availability: 12-18 Days

Weight: 3.91kg

Dimensions: 233.00mm x 248.00mm x
157.00mm

Price: 35,500.00EGP

Short Description

Expansion Unit 5 bays DX517

Description

5-bay 3.5"/2.5" SATA expansion

Easily add 5 additional drive bays to Synology DiskStation¹. Supporting both 2.5" and 3.5" SATA drives, DX517 is a flexible solution supporting on-the-fly volume expansion or serving as a local backup destination.

Online volume expansion

Managed from DiskStation Manager on the host NAS, the additional bays in the DX517 are immediately ready to be used once connected. On-the-fly volume expansion ensures that storage and services on the host are not interrupted during volume expansion.

Hot-swappable drive tray design

The hot-swappable drive trays of DX517 allow easy drive installation and replacement without powering down the system. Screwless drive tray design reduces the time needed for system setup.

Dedicated local backup solution

Synology DX517 can be used as a dedicated local backup solution for the Synology DiskStation. When created as a separate volume, the DX517 provides a great backup solution to its local hard disks in case of system failure.

Specification

NAS	
Drive Bays	5
Compatible Drive Type	3.5
Hot Swappable Drive	YES
Power Supply Unit / Adapter	200 W
